KEYBAKI LABS
labs.keybaki.com

FACT SHEET · OCTOBER 2026

Practise everyday digital skills, one step at a time.

KEYBAKI Labs (labs.keybaki.com) is a hands-on digital skills lab for the whole school community: learners, families, teachers and school staff. It covers six areas: Computer Foundations; Typing Studio; Desktop, Files & Editing; Documents, Sheets & Slides; Internet & Communication; and Digital Safety & Responsible AI. Every activity has three steps: Show me demonstrates it, Guide me walks you through it, and Let me try lets you do it on your own, with Tcha, the Labs guide, explaining each step out loud. Everything is safe practice: nothing real is sent, changed or bought. KEYBAKI Labs is part of KEYBAKI, built by a small team in Nairobi.

Six learning areas

Computer Foundations
The parts of a computer, switching on, clicking, scrolling and keys.

Typing Studio
Find your level, then build accuracy and speed.

Desktop, Files & Editing
Manage windows, organise files and edit text.

Documents, Sheets & Slides
Create documents, budgets and presentations.

Internet & Communication
Search thoughtfully and write clear emails.

Digital Safety & Responsible AI
Spot scams, protect accounts and check what AI tells you.

Every activity, three steps

1. Show me
Tcha does it while you watch.

2. Guide me
You do it, one step at a time.

3. Let me try
You do it on your own.

Good to know

- **For** learners, families, teachers and school staff, at any age.
- **Safe practice:** nothing real is sent, changed or bought, so mistakes are safe.
- **Skill checks** show what you can do, with no marks or rankings.
- **Sign in** with a KEYBAKI account. Progress saves to the account, so it is there on any computer. It needs an internet connection.
- **Devices:** typing, mouse and work activities need a computer with a keyboard and a mouse or touchpad. The basics, internet and safety activities work on any device, and every activity can be watched on a phone.
- **Tcha** (one syllable: “Chah”) is the Labs guide and mascot. She explains each step out loud.
