KEYBAKI LABS
labs.keybaki.com

Small steps. Real digital skills.

Practise computer basics, typing, documents, the internet and staying safe online, at your own pace.

Tcha shows you each step, out loud, then helps you do it yourself.

1. Show me
Tcha does it while you watch.

2. Guide me
You do it, one step at a time.

3. Let me try
You do it on your own.

What you can learn

Computer Foundations
The parts of a computer, switching on, clicking, scrolling and keys.

Typing Studio
Find your level, then build accuracy and speed.

Desktop, Files & Editing
Manage windows, organise files and edit text.

Documents, Sheets & Slides
Create documents, budgets and presentations.

Internet & Communication
Search thoughtfully and write clear emails.

Digital Safety & Responsible AI
Spot scams, protect accounts and check what AI tells you.

How to start

1. Open **labs.keybaki.com**, or scan the code.
2. Sign in with your KEYBAKI account. New to KEYBAKI? Create one first; students choose Student.
3. Open **My Skills**. New to computers? Start with Computer Foundations.

Best on a computer with a keyboard and mouse. On a phone you can watch every activity and practise the basics, internet and safety ones. Everything is safe practice: nothing real is sent, changed or bought.

Teachers and schools

Bringing KEYBAKI Labs to your learners? Email **partners@keybaki.com** with your school's name and county.
